

Worksheet: Positive and Negative Rules

Solve each problem below. Show your working for calculation problems.

1. Calculate the following: $-7 + 12$
2. Calculate the following: $15 - (-4)$
3. Calculate the following: $-3 \times (-6)$
4. Calculate the following: $-24 \div 8$
5. Calculate the following: $-5 + (-13)$
6. Calculate the following: $9 - 17$
7. Calculate the following: $(-2) \times 7$
8. Calculate the following: $36 \div (-6)$
9. Calculate the following: $(-8) - (-3)$
10. Calculate the following: $(-4) \times (-5)$

Maths with Melissa

Answer Key

1. $-7 + 12 = 5$
2. $15 - (-4) = 19$
3. $-3 \times (-6) = 18$
4. $-24 \div 8 = -3$
5. $-5 + (-13) = -18$
6. $9 - 17 = -8$
7. $(-2) \times 7 = -14$
8. $36 \div (-6) = -6$
9. $(-8) - (-3) = -5$
10. $(-4) \times (-5) = 20$
